-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 24-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Cimber (3,675,639). With respect to claim 24, Cimber discloses, in figures 2-4, an elongated inserter that is usable for a fastener as claimed, where the inserter (43) has a tubular carrier portion (46) with an open side and a sharpened distally directed edge defined by an inserter sloping distal surface (45). With respect to claims 25 and 26, Cimber discloses, in figures 2-4 and in col. 4, lines 24-29, an installation tool with an elongated rigid tube (72), a carrier portion (43) with a chamber having an open carrier side (58), a closed carrier side (at 62), and a proximal wall; and a sharpened edge (45), and control means (42) for moving the carrier portion. Note: The statements of intended use (i.e., "for a fastener, the fastener comprising a shaft...said shaft") have been carefully considered but deemed not to impose any structural limitations on the claims patentably distinguishable over Cimber's device, which is capable of being used as claimed if one desires to do so.

### ***Response to Amendment***

3. The amendment overcomes the rejection of claims under 35 U.S.C. 101.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mueller et al. (4,705,040) teach an installation tool usable with a fastener as claimed.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
